**Building Economic Development and Commerce  
For and Between African People Worldwide**

Black Star Industries is a Limited Liability Company (LLC) that brings all of the economic development institutions and projects of the African People's Socialist Party under one single umbrella. It also provides opportunities for community partnership subsidiary companies which benefit both Black Star Industries and enterprising individuals.

**Black Star Industries:**

- Generates resources for economic development programs and projects of the African People's Socialist Party, creating organizational self-reliance.
- Allows nonprofit organizations of the Uhuru Movement to have relationship to the economic institutions of the African People's Socialist Party.
- Fosters collective African business ownership and community commerce.

Black Star Industries begins to replace the colonialist economy which is clearly not meeting the needs of the African community. The impact of the current economic crisis is deep for African working class people who face mass unemployment, imprisonment, home foreclosures, and an ever widening wealth gap. The world economy was created at the expense of African and other oppressed peoples. As more and more people around the world are demanding and taking back their resources, the U.S. and Europe go into a crisis that they attempt to solve at our expense. We must develop an independent economy that meets our needs.

Black Star Industries is our economic future, developing wealth and prosperity for Africa and African people everywhere. We cannot solve our problems alone, but with each other we can build an economy that sustains ourselves and puts us on the road to independence and self-determination. We can teach ourselves how economic development works, and the importance of giving back to help each other not as charity, but to create a self-sustaining economy that we control.

## **APEDF MAKING MOVES IN THE AFRICAN COMMUNITY**

**African People's Education and Defense Fund is a non-profit organization that is making its way throughout the African community. APEDF is building self sustaining programs like the Halloween Haunted House, Community Holiday Dinner, St. Pete Kids Got Talent, Black Sunday, Kids Fit Camp, Boxerobics, and so much more in the near future! St. Pete Kids Got Talent is a conjoined fundraiser to help build the Community Studio that APEDF is trying to organize to give the youth another outlet to express their talents. We believe that bringing a sense of Unity to the community through different programs will leave a positive impression of the baddest(flyest) Non-Profit around. Uhuru!**

**The All Peoples TyRon Lewis Community Gym's mission is to build the individual and collective health of the African community one body at a time.**

**To accomplish this we have a wealth of programs to help the community become healthier. Here is a list of our programs:**

**Box Aerobics every Wednesday night at Akwaaba Hall  
Kids Fit Camp every Saturday at 10am  
Diabetes Intervention Program  
30 day challenges
